

2024 Annual Report

At Creative Encounters, our position is that Science, Technology, Engineering and Math (STEM) are for everyone. Additionally, we believe in **the power of today's youth** as great minds preparing to shape the future.

Our mission continues to be inspiring, supporting and sparking curiosity in the minds of youth; encouraging them to become **innovative, problem-solving students of today** and **knowledgeable, visionary individuals of tomorrow**.

The outcome being a suite of events and programs that continue to evolve as we work to consider learner needs and the developing landscape of STEM.
